PROFESSIONAL SUMMARY

Junior Software Developer with hands-on experience building full-stack web applications and Android mobile systems using Java, PHP, MySQL, and JavaScript. Experienced in designing database-driven applications, implementing object-oriented solutions, and developing responsive user interfaces. Strong foundation in software development principles and problem-solving. Eager to contribute to production-level systems within a collaborative development team while continuing to grow technically.

TECHNICAL SKILLS

Languages & Frameworks:

Java, PHP, JavaScript, HTML, CSS

Databases:

MySQL

Development Concepts:

Object-Oriented Programming (OOP)

Database Design & CRUD Operations

Software Development Life Cycle (SDLC)

REST/API Integration

Git & Version Control

TECHNICAL PROJECTS

Zesty Wear SA – Full – Stack E-Commerce Website

Technologies: HTML, CSS, JavaScript, PHP, MySQL

- Designed and developed a full-stack e-commerce web application with product listings, cart functionality, and checkout flow.
 - Designed and implemented a relational MySQL database schema to manage product, user, and order data.
 - Implemented session-based authentication and access control for secure user interactions.
 - Developed responsive front-end interface ensuring usability across desktop and mobile devices.
 - Structured scalable CRUD operations to support dynamic product and order management.
-

WattWay – EV Charging & Load Shedding Mobile App

Technologies: Java (Android), API Integration

- Developed an Android mobile application providing EV charging station locations with integrated navigation.
 - Implemented API integration to retrieve and display load-shedding schedules dynamically.
 - Applied object-oriented design principles across activities and data handling.
 - Designed intuitive UI workflows aligned with Android activity lifecycle management
-

Digital Insurance Management System (Java Application)

Technologies: Java

- Built a console-based insurance management system to store and manage client records.
 - Implemented modular object-oriented architecture with multiple classes for scalability.
 - Designed data validation logic to ensure structured and accurate record handling.
 - Applied logical control flow and structured error handling.
-

F1 Reaction Time Web Application

Technologies: HTML, CSS, JavaScript

- Developed an interactive web application to measure user reaction speed.
 - Implemented event-driven programming and dynamic DOM manipulation.
 - Designed responsive UI with real-time response tracking logic.
-

Personal Developer Portfolio Website

Technologies: HTML, CSS, JavaScript, GitHub

Portfolio Link: [Anje | Software Engineering](#)

- Designed and developed a fully responsive personal portfolio website to showcase technical projects and skills.
 - Implemented mobile-first responsive design ensuring compatibility across desktop, tablet, and mobile devices.
 - Structured reusable components and clean CSS architecture for maintainability.
 - Integrated GitHub-hosted deployment using version control workflows.
 - Focused on clean UI/UX design and professional presentation of technical work
-

WORK EXPERIENCE

Admin Clerk – Family Business (Part-Time)

January 2018 – 2022

- Managed and maintained structured administrative documentation systems.

- Organized financial records and invoices ensuring accurate tracking.
- Handled confidential business documentation with discretion.
- Strengthened time management and operational efficiency through structured filing processes.

EDUCATION

Bachelor of Science in Information Technology (Software Engineering)

Eduvos – Bloemfontein

2023 – 2025

Achievements:

- Member of Golden Key International Honour Society
- Class Representative (2025)

LEADERSHIP & ACHIEVEMENTS

- Class Representative – Demonstrated leadership, communication, and coordination skills
- Golden Key Honour Society – Academic excellence recognition

ADDITIONAL INFORMATION

- Languages: English & Afrikaans
- Willing to relocate
- Own transport + Licence

EST. **Eduvos** 1979

The Senate of Eduvos (Pty) Ltd
hereby certifies that the

Bachelor of Science in Information Technology

with all its associated rights
and privileges was conferred upon

Anje Nieuwenhuis

in terms of the Higher Education Act, 1997.

Executive Head of Academics
Dr. Mandi Joubert

Acting Registrar
Samantha Naidoo

Golden Key International Honour Society

This Certifies That

Anje Nieuwenhuis

Is a member of Golden Key International Honour Society as validated by

Eduvos

and is hereby granted all Honours, Benefits, and Privileges
pertaining to membership in the Society, effective

2024

Chairperson

Chief Executive Officer
